Marzena Karpinska is currently an Assistant Professor at the Simon Fraser University. Prior to that, she was a Senior Researcher at **Microsoft Translator** and postdoctoral researcher at the **Manning College of Information & Computer Sciences, University of Massachusetts Amherst**, advised by **Mohit Iyyer**. She received her Ph.D. from the **Department of Language and Information Sciences at the University of Tokyo**. Her research interests lie at the intersection of natural language processing (NLP) and human-centered computing.

Education

2020–2024 **Postdoc:** The University of Massachusetts Amherst (USA), Manning College of Information & Computer Sciences, Natural Language Processing

Focus: *Long-form Text Processing and Generation, Machine Translation, Multilingual NLP, Summarization.*

2014–2020 **Ph.D.:** The University of Tokyo (Japan), Language and Information Sciences Dept.

2012–2014 **M.A.:** The University of Tokyo (Japan), Language and Information Sciences Dept.

2011–2012 **Research Stay:** The University of Tokyo (Japan), Language and Information Sciences Dept.

2007-2010 **M.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics

2008–2009 **Research Stay:** Tokyo University of Foreign Studies (Japan), Japanese Studies

2004–2007 **B.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics

Work Experience

2026– **Assistant Professor:** Simon Fraser University (Canada), (*full-time position*)

2024–2026 **Senior Researcher:** Microsoft Translator (USA), (*full-time position*)

Focus: Document-level machine translation and evaluation

2020–2024 **Postdoctoral Researcher:** University of Massachusetts Amherst (USA), (*full-time position*)

Focus: Document-level machine translation

Long-form generation of creative text

Multilingual question answering with focus on low-resource languages

Book-length summarization and claim verification

2018–2019 **Research Assistant:** The University of Tokyo (Japan), A joint research project of The University of Tokyo, Tokyo Institute of Technology, and Konan University, (*part-time position*)

Focus: Multilingual natural language processing

Publications

Acceptance rate mostly 20%–30%

Ongoing Projects

1. **LitMT:** Collecting readers' feedback on machine translated literature in order to further improve machine translation systems and train passage-level evaluation metrics (URL).
2. **Human-Computer Interaction:** Investigating how machine translation systems can be introduced in the traditional translation pipeline.
3. **NoCha:** Evaluating the ability of long-context language models in verifying factual claims within book-length texts (URL).

Teaching Experience

01/2027 **Instructor:** Simon Fraser University (Canada)

Advanced Methods in Natural Language Processing (CMPT 419/983)

09/2026 **Instructor:** Simon Fraser University (Canada)

Applied AI for more (CMPT 218/983), 31 students

09/2026 Guest lecture at CMPT 891 (SFU) on "High performance computing"

01/2026 **Instructor:** Simon Fraser University (Canada)

Advanced Topics in Natural Language Processing (CMPT 419), 22 students

2024 **Guest Lecture:** University of Massachusetts Amherst (USA)

Human-centered Machine Translation (COMP-LIT 481)

2023 **Guest Lecture:** University of Massachusetts Amherst (USA)

Machine Translation on Paragraph-level (CS 685)

2022 **Guest Lecture:** University of Massachusetts Amherst (USA)

Biases in Large Language Models (PHILL 755)

2018–2019 **Instructor:** Tama Art University (Japan), (*part-time position*)

2014–2018 **Instructor:** Nippon Institute of Technology (Japan), (*part-time position*)

2015–2018 **Teaching Assistant:** The University of Tokyo (Japan), (*part-time position*)

2012–2013 **Teaching Assistant:** The University of Tokyo (Japan), (*part-time position*)

Mentoring Experience

Ankita Gupta, Katherine Thai, Yekyung Kim, Jenna Russell (Ph.D. students, CS)

Nishant Raj, William Ray, Anirudh Atmakuru, Anmol Mekala (Master's students, CS)

Jiarui Liu, Ipsita Bhattacharjee, Michael Ifejiagwa, Shreyan Mallik, Agneshka Rohra, Sofia Simonoff, Minh Le, Alisha Srivastava, Emir Korukluoglu (Undergraduate students, CS)

Invited Talks

11/2026 Polish Academy of Sciences, AI without Borders (MOST PAN)

Detecting AI generated content on surface- and idea-level

11/2026 Panelist at CAN-CWIC West 2026 (Canadian Celebration of Women in Computing)

07/2026 Simon Fraser University, Department of Linguistics colloquium

Characterizing AI use in writing

06/2026 Keynote at the StyGenAI workshop at EAMT 2026 (Tilburg, the Netherlands)

11/2025 Polish Academy of Sciences, NLP Seminar

OneRuler: benchmarking multilingual long-context language models

08/2024 UNSW Sydney, NLP Seminar

Evaluating Factuality in Long-Context Language Models

07/2024 The Royal Melbourne Institute of Technology, NLP Seminar

Evaluating Factuality in Long-Context Language Models

07/2024 The University of Melbourne, NLP Seminar

Evaluating Factuality in Long-Context Language Models

05/2023 Instituto Superior Técnico & Unbabel Seminar

Paragraph-level Machine Translation of Literary Texts with Large Language Models

04/2023 Microsoft MT Reading Group

Paragraph-level Machine Translation of Literary Texts with Large Language Models

01/2023 Polish Academy of Sciences, NLP Seminar

Evaluation of Long-form Text Generation

Grants

- NSERC Discovery Grant (5 years), 2026 (CAD 180,000)
- NSERC Discovery Launch Supplement, 2026 (CAD 12,500)
- Google Research Credits, 2026 (USD 5,000)

Awards and Scholarships

- Outstanding senior area chair award at EMNLP 2026
- Outstanding area chair award at EMNLP 2024
- Competitive Research Grant for Ph.D. Students awarded based on the research proposal, 2017–2019 (granted yearly; ~¥600,000)
- Research Student Scholarship of Ministry of Education of Japan, 2008–2009 and 2011–2017 (~¥11,500,000)
- Scholarship awarded yearly based on the GPA by the Rector of the University of Warsaw, 2005–2010

Service and Outreach

Senior AC: EMNLP 2026 (★ recognized as an outstanding SAC), EMNLP 2025

Area Chair: COLM 2026, ARR March 2026, ACL 2025, EMNLP 2024 (★ recognized as an outstanding AC), ARR August 2024, ARR October (NAACL 2024)

Ethics Reviewer: COLM 2024

Grant Reviewer: UKRI 2024

Reviewing: ACL, EMNLP, EACL, NAACL, AACL, TACL, COLM, WMT, ICPhS, ESSLLI, ECAI, FedCSIS, GEM Workshop, Workshop on Negative Results in NLP, Workshop on Narrative Understanding

Other: Statistical analysis of peer-review data from the Association for Computational Linguistics (ACL) 2023

Volunteer chair at NAACL 2027

Session chair at ACL 2026

Co-organizer of SFU CS Research Day 2026

Faculty mentor for VCR/AI weekly seminars in Fall 2026

Other Experience

2014–2020 **Language Specialist:** Innovative Language Learning (ILL) (Japan), (*part/full-time position*)

Tasks Developing curricula, assessments, and study materials for over 30 languages on the ILL digital learning platform (URL)

Designing experiments to measure and improve students' performance

Utilizing NLP tools for content development

Improving user experience with the Alexa voice assistant for the ILL language skill

2008–2020 **Translator:** Japanese-Polish-English Translator and Interpreter (*freelance*)

Experience Various translations including manga, legal documents, technical documentation, oral presentations, and formal events for many high profile clients such as Deloitte, Sumitomo Corporation, Toyota, and Polish Embassy in Japan

Skills and Expertise

- *Coding*: Python, R, JavaScript, CSS, LaTeX;
- *Libraries*: PyTorch, Scikit-Learn, Numpy, Scipy;
- *Theoretical frameworks*: distributional semantics, frame semantics, cognitive semantics, pragmatics, discourse analysis, sociolinguistics, sociophonetics, translation theory;
- *Research Skills*: designing controlled experiments, collecting participant data, performing statistical analysis (R), ethics of data collection;
- *Languages*: English, Polish, Japanese (native or near-native), German (intermediate), Chinese, Czech, French, Russian (beginner), broad knowledge of typological traits of over *30* languages available on the ILL platform (URL)
