Marzena Karpinska is currently a postdoctoral researcher at the University of Massachusetts Amherst, Manning College of Information & Computer Sciences. She received her Ph.D. in linguistics from the Department of Language and Information Sciences, the University of Tokyo. Her research interests lie at the intersection of natural language processing, cognitive linguistics, and translation studies.

Education

2014–2020 **Ph.D.:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Thesis *The influence of socio-indexical cues on speech perception by non-native English listeners.*

2012–2014 **M.A.:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Thesis *The Source-Path-Goal Schema in Japanese and Polish.*

2011–2012 **Research Stay:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Focus: *The Conceptualization of 'Source' in Japanese and Polish.*

2007-2010 **M.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics
Thesis *Semantics of Japanese Evaluative Adjectives.*

2008–2009 **Research Stay:** Tokyo University of Foreign Studies (Japan), Japanese Studies
Focus: *Coexisting Intransitive Verbs: A Case of Japanese.*

2004–2007 **B.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics
Thesis *Semantics of Japanese Transitive - Intransitive Verb Pair 'ateru:ataru.'*

Research Experience

2020– **Postdoctoral Researcher:** University of Massachusetts Amherst (USA), (*full-time position*)
Tasks: Collecting datasets to improve machine translation and machine translation metrics
Investigating pitfalls of current evaluation methods in NLP
Improving and evaluating machine translation of literary texts

2018–2019 **Research Assistant:** The University of Tokyo (Japan), A joint research project of The University of Tokyo, Tokyo Institute of Technology, and Konan University, (*part-time position*)
Tasks: Cleaning and processing multiple corpora
Training word2vec models and aligning embeddings with MUSE
Curating cognates dataset for Romance, Germanic, and Slavic languages

Publications

1. **Marzena Karpinska** and Mohit Iyyer (2023). "Large language models effectively leverage document-level context for literary translation, but critical errors persist". arXiv: 2304.03245 [cs.CL] (*to appear at WMT*)
2. Ankita Gupta, **Marzena Karpinska**, Wenlong Zhao, Kalpesh Krishna, Jack Merullo, Luke Yeh, Mohit Iyyer, Brendan O'Connor (2023). "ezCoref: Towards Unifying Annotation Guidelines for Coreference Resolution". *Findings of the Association for Computational Linguistics: EACL 2023*. Dubrovnik, Croatia: Association for Computational Linguistics, pp. 312–330. (URL)

Teaching Experience

2023 **Guest Lecture:** University of Massachusetts Amherst (USA)

Evaluation of Machine Translation (CS 685)

2022 **Guest Lecture:** University of Massachusetts Amherst (USA)

Biases in Large Language Models (PHILL 755)

2018–2019 **Instructor:** Tama Art University (Japan), (*part-time position*)

2014–2018 **Instructor:** Nippon Institute of Technology (Japan), (*part-time position*)

2015–2018 **Teaching Assistant:** The University of Tokyo (Japan), (*part-time position*)

2012–2013 **Teaching Assistant:** The University of Tokyo (Japan), (*part-time position*)

Mentoring Experience

Ankita Gupta, Katherine Thai (Ph.D. students)

Nishant Raj, William Ray (Master's students)

Michael Ifejiagwa, Shreyan Mallik, Agneshka Rohra, Sofia Simonoff (Undergraduate students)

Jiarui Liu (Undergraduate student)

Invited Talks

05/2023 Instituto Superior Técnico & Unbabel Seminar

Paragraph-level Machine Translation of Literary Texts with Large Language Models

04/2023 Microsoft MT Reading Group

Paragraph-level Machine Translation of Literary Texts with Large Language Models

01/2023 Polish Academy of Sciences, NLP Seminar

Evaluation of Long-form Text Generation

Industry Experience

2014–2020 **Language Specialist:** Innovative Language Learning (ILL) (Japan), (*part/full-time position*)

Tasks Developing curricula, assessments, and study materials for over 30 languages on the ILL digital learning platform (URL)

Designing experiments to measure and improve students' performance

Utilizing NLP tools for content development

Improving user experience with the Alexa voice assistant for the ILL language skill

2008–2020 **Translator:** Japanese-Polish-English Translator and Interpreter (*freelance*)

Experience Various translations including manga, legal documents, technical documentation, oral presentations, and formal events for many high profile clients such as Deloitte, Sumitomo Corporation, Toyota, and Polish Embassy in Japan

Awards and Scholarships

- Research Grant for Excellent Ph.D. Students, 2017–2019 (granted yearly; ~¥600,000)
- Research Student Scholarship of Ministry of Education of Japan, 2008–2009 and 2011–2017 (~¥11,500,000)
- Scholarship awarded yearly based on the GPA by the Rector of The University of Warsaw, 2005–2010

Skills and Expertise

- *Programming*: Python, R, JavaScript, CSS;
- *Machine learning frameworks*: scikit-learn, PyTorch;
- *Theoretical frameworks*: distributional semantics, frame semantics, cognitive semantics, pragmatics,

discourse analysis, sociolinguistics, sociophonetics, translation theory;

- *Research Skills*: designing controlled experiments, collecting participant data, performing statistical analysis (R), ethics of data collection;
- *Languages*: English, Polish, Japanese (native or near-native), German (intermediate), Chinese, Czech, French, Russian (beginner), broad knowledge of typological traits of over *30* languages available on the ILL platform (URL)

Certificates

Pedagogical Training:	Completed 90 hours of training during the University of Tokyo Future Faculty Program
Language:	Japanese-Language Proficiency Test (JLPT N1), Japan Kanji Aptitude Test (level 2)

Service and Outreach

Reviewing:	ACL, EMNLP, EACL, ICPhS, NLP Workshops
