Google Scholar

Marzena Karpinska received her Ph.D. in linguistics from the Department of Language and Information Sciences, the University of Tokyo. Her research interests lie at the intersection of natural language processing, theoretical linguistics, and translation studies.

Education

2014-2020 **Ph.D.:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Thesis *The influence of socio-indexical cues on speech perception by non-native listeners.*

2012-2014 **M.A.:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Thesis *The Source-Path-Goal Schema in Japanese and Polish.*

2011-2012 **Research Stay:** The University of Tokyo (Japan), Language and Information Sciences Dept.
Focus: *The Conceptualization of 'Source' in Japanese and Polish.*

2007-2010 **M.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics
Thesis *Semantics of Japanese Evaluative Adjectives.*

2008-2009 **Research Stay:** Tokyo University of Foreign Studies (Japan), Japanese Studies
Focus: *Coexisting Intransitive Verbs: A Case of Japanese.*

2004-2007 **B.A.:** The University of Warsaw (Poland), Oriental Studies Dept., Japanese Linguistics
Thesis *Semantics of Japanese Transitive - Intransitive Verb Pair 'ateru:ataru.'*

Research Experience

2020– **Postdoctoral Researcher:** University of Massachusetts Amherst (USA), (*full-time position*)
Tasks: Working on collecting datasets, machine translation, and evaluation of machine-generated text

2018–2020 **Research Assistant:** The University of Tokyo (Japan), A joint research project of The University of Tokyo, Tokyo Institute of Technology, and Konan University, (*part-time position*)
Tasks: Cleaning and lemmatizing multiple corpora
Training word2vec models and aligning embeddings with MUSE
Curating cognates dataset for Romance, Germanic, and Slavic languages

2016-2017 **Research Assistant:** The University of Tokyo (Japan), (*part-time position*)
Tasks: Preparing auditory stimuli, designing speech perception experiments in SuperLab
Collecting participants' data, performing statistical analysis in R

Teaching Experience

2018-2019 **Instructor:** Tama Art University (Japan), (*part-time position*)

2014-2018 **Instructor:** Nippon Institute of Technology (Japan), (*part-time position*)

Industry Experience

2014–2020 **Language Specialist:** Innovative Language Learning (ILL) (Japan), (*part/full-time position*)
Tasks Developing curricula, assessments, and study materials for over 30 languages on the ILL digital learning platform (URL)

Designing experiments to measure the students' progress and analyzing trends in their performance

Utilizing NLP tools for content development

Improving user experience with the Alexa voice assistant for the ILL language skill

2008–2020 **Translator:** Japanese-Polish-English Translator and Interpreter (*freelance*)

Experience Various translations including manga, legal documents, technical documentation, and oral presentations and formal events for many high profile clients such as Deloitte, Sumitomo Corporation, Toyota, and Polish Embassy in Japan

Awards and Scholarships

- Research Grant for Ph.D. Students, 2017–2019 (granted yearly)
- Research Student Scholarship of Ministry of Education of Japan, 2008–2009 and 2011–2017
- Scholarship awarded yearly by the Rector of The University of Warsaw, 2005–2010

Skills and Expertise

- *Programming*: Python, R;
- *Machine learning frameworks*: scikit-learn, PyTorch;
- *Theoretical frameworks*: distributional semantics, frame semantics, cognitive semantics, pragmatics, discourse analysis, sociolinguistics, sociophonetics, translation theory;
- *Research Skills*: designing controlled experiments, collecting participant data, performing statistical analysis, ethics of data collection;
- *Languages*: English, Polish, Japanese (native or near-native), German (intermediate), Chinese, Czech, French, Russian (beginner), broad knowledge of typological traits of over *30* languages available on the ILL platform (URL)
